PROFESSIONAL OVERVIEW

A highly motivated and results-driven Backend Web Developer with a solid foundation in programming and web technologies. Proficient in languages such as Python, Java, Node.js, and PHP, along with expertise in databases like MySQL and MongoDB. Adept at collaborating with front-end developers and other team members to create seamless and dynamic web applications. Passionate about learning new technologies and continuously improving skills to deliver high-quality solutions. Looking for an opportunity to contribute and grow in a dynamic development team.

VIRTUAL INTERNSHIPS

Domain : C++ Programming

InternPe, Rajasthan(Online) | April 2024

- Worked as C++ Programmer intern .
- Worked on developing, testing, and optimizing C++ code. implemented algorithms to improve system performance.

Domain : Java Programming

CodSoft, Kolkata(Online) | Jan 2025

- Embarking on my internship at CodSoft as a Java programmer was a transformative journey marked by three distinct projects: the "Number Game," "Student Grade Calculator," and "ATM Interface." These projects challenged me to innovate and collaborate, shaping not only my technical skills but also my for personal growth.
